UNIFORM GUIDELINES

The dress code for the International Society of Residential Concierge is understated, elegant and timeless.

The aim is always to look stylish but never to compete with the fashionable sentiments of the Owners.

The colour palette is restrained and classic - black, navy blue, grey, brown and ivory.

Patterns should be restricted to the pocket square of the gentlemen and never worn by the lady.

The line is always graphic and simple.

The male wardrobe is guided by fine English tailoring style - in the vein of Thomas Sweeney.

The style for women is guided by the beauty and simplicity of Celine.
